

CP MISSIONS

OUR STORY

Luke and Amy Wong founded Bridges/7-Stages ministry in 2003. What began as a one year commitment to lead English Bible studies to college students progressed over the years into a 7-Stages spiritual growth strategy, making equippers out of seekers. Every time we observed a need to progress in those we were nurturing, another stage was developed. Over the years an increasing number of church leaders approached us wanting to learn the 7-Stages Strategy. In 2016, we handed over the discipleship ministry and began our concentrated efforts on establishing a Training Center whereby a 7-Stages core curriculum could be produced and local church leaders could receive training. Since then we have held 7-Stages conferences sharing the 7-Stages curriculum.
